

Open Positions in Cognitive Robotics

Technische Universität Wien, Austria, Vision for Robotics Laboratory

In relation to our projects in the domain of Vision for robotics we seek excellent students and researchers at **PhD and PostDoc** level with experience in **cognitive vision and robotics**.

The ideal candidate would possess very strong skills in robotics or computer vision and good knowledge in either computer vision, robotics, mathematics or cognitive science. Candidates preferably should have excellent programming skills, want to work in teams, and should be ready to grasp the opportunity of an exchange with one of our project partners. To learn more about the above projects please visit <http://v4r.acin.tuwien.ac.at/>.

Applicants should submit 1) a CV, including a brief research statement, and 2) three (3) recent publications in electronic format. The total file size of applications should be < 10 MB.

Applicants should contact:
