

The Automation and Control Institute (ACIN) at TU Wien is offering the following

PhD-Position (m/f/d): „Control and Optimization of Material Properties in Strip Processing Lines“

What you'll be doing

In the Complex Dynamical Systems Group (**Prof. Andreas Kugi**) and in close cooperation with an **internationally active, industrial research partner** you will develop new methods for modeling, monitoring, control, and optimization of material properties in continuous strip processing lines.

Research topics

- Mathematical modeling of the influence of thermal and mechanical processing steps on the micro structure and properties of materials
- Data-driven estimation and soft-sensing of non-measurable process variables
- Optimization and control of material properties in strip processing lines
- Realization and test of control solutions at an industrial strip processing line

Your profile

- Master's degree in mathematics, automatic control, computer science, mechatronics, electrical engineering, mechanical engineering, mechanics, materials science, metallurgy, process engineering, physics
- Excellent technical understanding and analytical capabilities
- High commitment and motivation, willingness to contribute to academic teaching
- Team spirit, strong communication skills, goal orientation, structured, and responsible way of working
- Very good command of written and spoken English, basic skills in German favorable

We offer

- Future-oriented research and innovative solutions for the latest problems
- Scientific freedom and time to author a PhD dissertation
- Solid training and continuing education as well as participation in international conferences
- Promotion, support, dialog, and cooperation in a motivated and interdisciplinary team
- Cooperation with a renowned, internationally active, industrial research partner
- Secured funding and well equipped infrastructure
- Employment contract for 3 years (40 hours a week) with option for extension
- Gross salary of € 45.882,20 p.a.

We are looking forward to receiving your application including the usual documents via e-mail sent to applications.cds@acin.tuwien.ac.at. In case of questions, please contact Prof. Andreas Steinböck (e-mail: andreas.steinboeck@tuwien.ac.at).

About us

The Automation and Control Institute (ACIN) belongs to the Faculty of Electrical Engineering and Information Technology of TU Wien. At ACIN, more than 80 researchers conduct basic research, solve challenging practical problems, cooperate with industrial research partners, develop innovations, and offer students excellent academic teaching in the fields systems theory, automation, and control engineering. More info at <https://www.acin.tuwien.ac.at/komplexe-dynamische-systeme-cds/>.
